## KEY TO NUMBERED ANNOTATIONS ON FIGURE 1

1. Probable SIBIR class Refrigerated Transport in floating dock.  
 Identification is based on the size and position of the superstructure and the rake of the bow.
2. Probable unidentified auxiliary.
3. Two possible KASHIN Class DLGs.  
 Identification is based on the position and size of the superstructure, and the overall hull outline.
4. Two possible KOTLIN Class DDs.  
 Identification is based on the rough length to width ratio, and the overall hull outline. Yard craft are working about the bow of these vessels.
5. Possible KASHIN Class DLG.  
 Identification of this vessel is based on length overall, and the position and size of the superstructure.
6. Two possible KASHIN Class DLGs.  
 Identification is based on the position and size of the superstructure, and the overall hull outline, and the rake of the bow.
7. Unidentified small vessel.
8. Unidentified vessel.
9. Probable SIBIR Class Refrigerated Transport.  
 Identification is based on the position of the superstructure, approximate size, and overall hull outline.
